

UCLA Women's School Leadership Academy 2021

AMPLIFYING WSLA

Through lines and themes are built into WSLA.

Through lines:

- 360 degree leadership
- Communicating for impact
- Navigating public and private lives

Themes:

- Promoting equity, access and inclusion
- Leading as a woman in times of calm and crisis
- Increasing capacity to manage and lead
- Making decisions considering multiple cultural and political perspectives
- Women supporting women in professional growth

These are amplified by three elements that are integral to best practices in both management and leadership.

Identify/recognize your strengths by looking within

Expand/build/increase your capacity with new skills and competencies

Magnify your impact by translating vision to strategy
